

## What are Your Real Riches?

**Napoleon Hill** was an American author who was one of the earliest producers of the modern genre of personal-success literature. His most famous work, *Think and Grow Rich*, is one of the best-selling books of all time. Hill's works examined the power of personal beliefs, and the role they play in personal success. "What the mind of man can conceive and believe, it can achieve" is one of Hill's hallmark expressions. How achievement actually occurs, and a formula for it that puts success in reach for the average person, were the focus of Hill's books.

Based on his research, he compiled this list. Rank yourself and then see how you compare to Hill's findings.
